

## Title: Procedure for Obtaining Certificate of Conformity for Demolition Activities

### 1.0 Purpose

The purpose of this procedure is to describe and outline the method, how the client working on Dubai World Developments will apply & obtain COC for Demolition Activities.

### 2.0 Scope

This procedure will apply to the contractors involved in the demolition work on all Dubai World Developments.

### 3.0 Procedure to be followed

**3.1** All demolition work carried out in areas/ projects under the jurisdiction of PCFC Environment, Health & Safety must take into account the requirements of EHS regulations and standards. Contractor has to ensure that a valid Certificate of Conformity must be obtained from EHS Construction Safety before starting any Demolition Activities (where applicable). This will also enable the main contractor to obtain the necessary Building Demolition Permit/ NOC from the Civil Engineering Department (CED) of TRAKHEES.

The flow chart provides a step by step guide to ensure that all parties are familiar with the process and can make the necessary application.

**3.2** Application of COC for Demolition Activities must be made by the Main Contractor/ and or Consultant for all demolition Activities. Application must be made after the site has been established but before any demolition activity started.
